

## PRESS RELEASE

Athens, 20<sup>th</sup> October 2010

### “Business Development & Extroversion Award” for GLOBO at Info-Com 2010

The “**Business Development & Extroversion Award**” was given to GLOBO, in the scope of the International Conference on Telecommunications and Information Technology “**Info-Com World 2010**”, held for 12th consecutive year, powered by "Mobile Telephony & Telecom», «Info-Com» and Smart Press publications.

The award has been received by Company's General and Commercial Director, **Mr Gerasimos Bonanos**, who commented: "This award has a major significance for us, as it comes at a time when we operate in success markets, such as Southeast Asia, Middle East , Balkans, Central & Western Europe and America and marks a new development path for our company. The pioneering and innovative applications for mobile phones, **CitronGO!** ([www.citrongo.com](http://www.citrongo.com)) and **GO! Social** have contributed substantially to GLOBO's business strategy progress and managed to compete on an “equal footing” distinguished companies, such as Google, Apple and RIM. »

Info-Com World is recognized as an important “meeting path” of Telecommunications, IT and Media executives, empowered by the participation of several Greek and foreign business representatives and has been attended by more than 2,000 participants.

### About GLOBO

GLOBO ([www.globopl.com](http://www.globopl.com)) was founded in 1997, designed to provide advanced technology services and software solutions in E-Business sector. From 2007, is listed on London Stock Exchange (GBO.LN) and currently has an active presence in over 15 countries worldwide.

Through continuous research and development, Globo has been recognized as one of the most innovative companies in Greece and Internationally. Currently is employing over 150 people on a permanent basis, with offices in Athens, London, Dubai, Singapore, Atlanta, Nicosia and Bucharest.

In 2009, Globo Group recorded a turnover of €23,9m with pre-tax profit of €3,2m while the respective figures at the first half of 2010 showed an increase of 56%.
